Profile

Solution-driven web developer adept at contributing to highly collaborative work environment and finding solutions. Proven experience developing consumer-focused websites using HTML, CSS, Angular, React and JavaScript. Good knowledge of the best practices for web design, user experience, and speed.

Development

Developed over 200 pages by writing lines of code using HTML, CSS, Angular.
Determined coding requirements for site creation, including e-commerce capability, security and specialized scripts.

UX Design

Employed coding practices based on commonly accepted standards to establish site layout and user interface. Established presentation consistency across Chrome, Safari, Firefox and other common browser interfaces. Ensured all websites were mobile-friendly.

Problem Solving

Ran debugging tools such as Firebug and Chrome Inspector to eliminate flaws and glitches prior to publishing. Conducted testing and review of website design for responsiveness, clarity and effectiveness.
